

Guida all'utilizzo di PDF Xchange Viewer

Prima di tutto scaricarlo e installarlo poi impostare il PC in modo da aprire i PDF con PDF Xchange in automatico

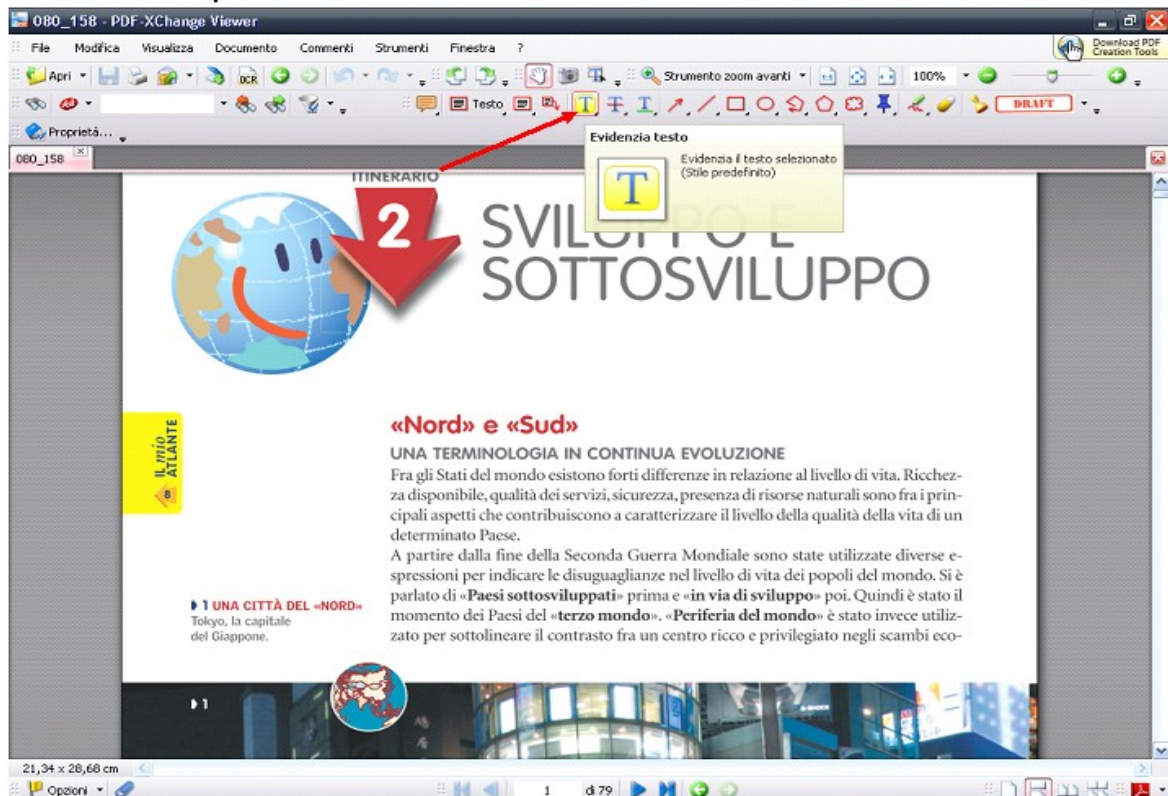

clicca sul tasto destro del mouse e scegli apri con ..e poi programma

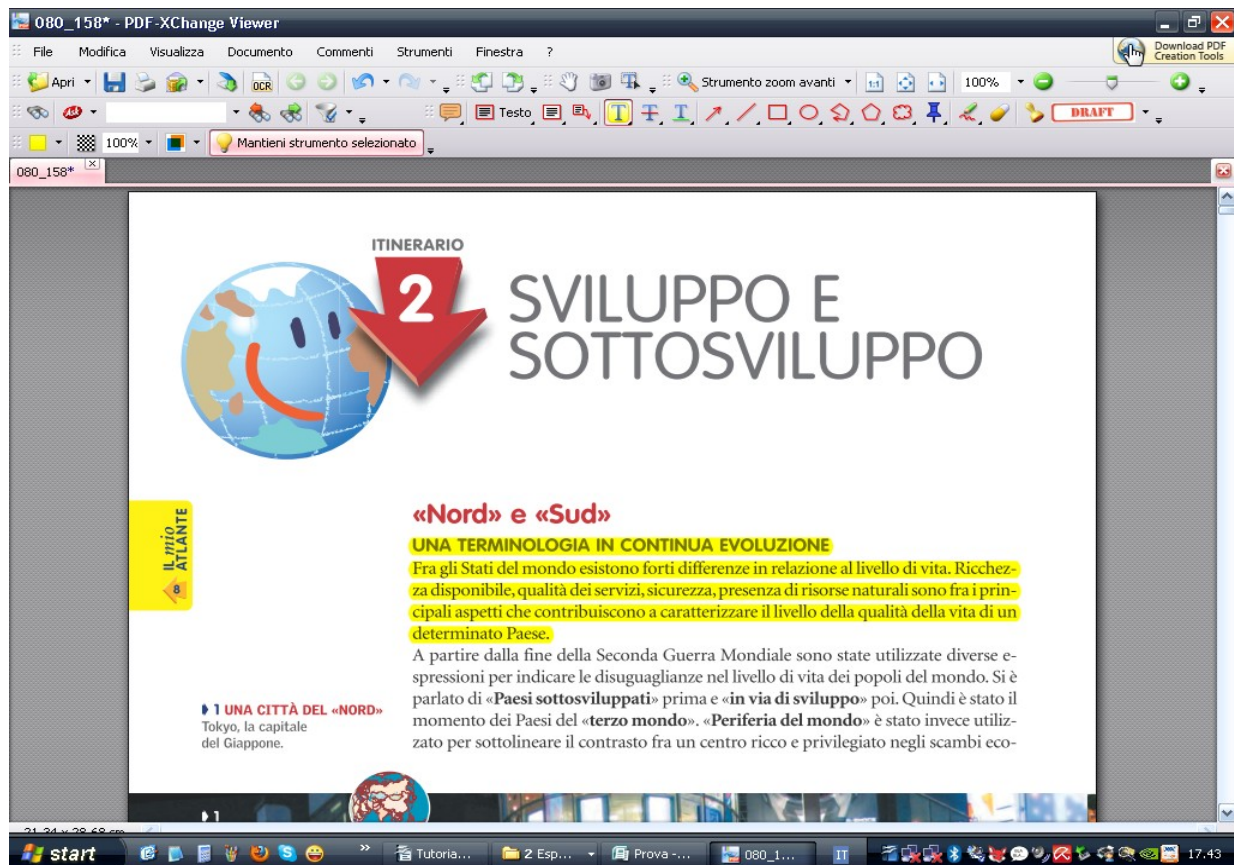

poi scegliere PDF Xchange e mettere la spunta e poi OK

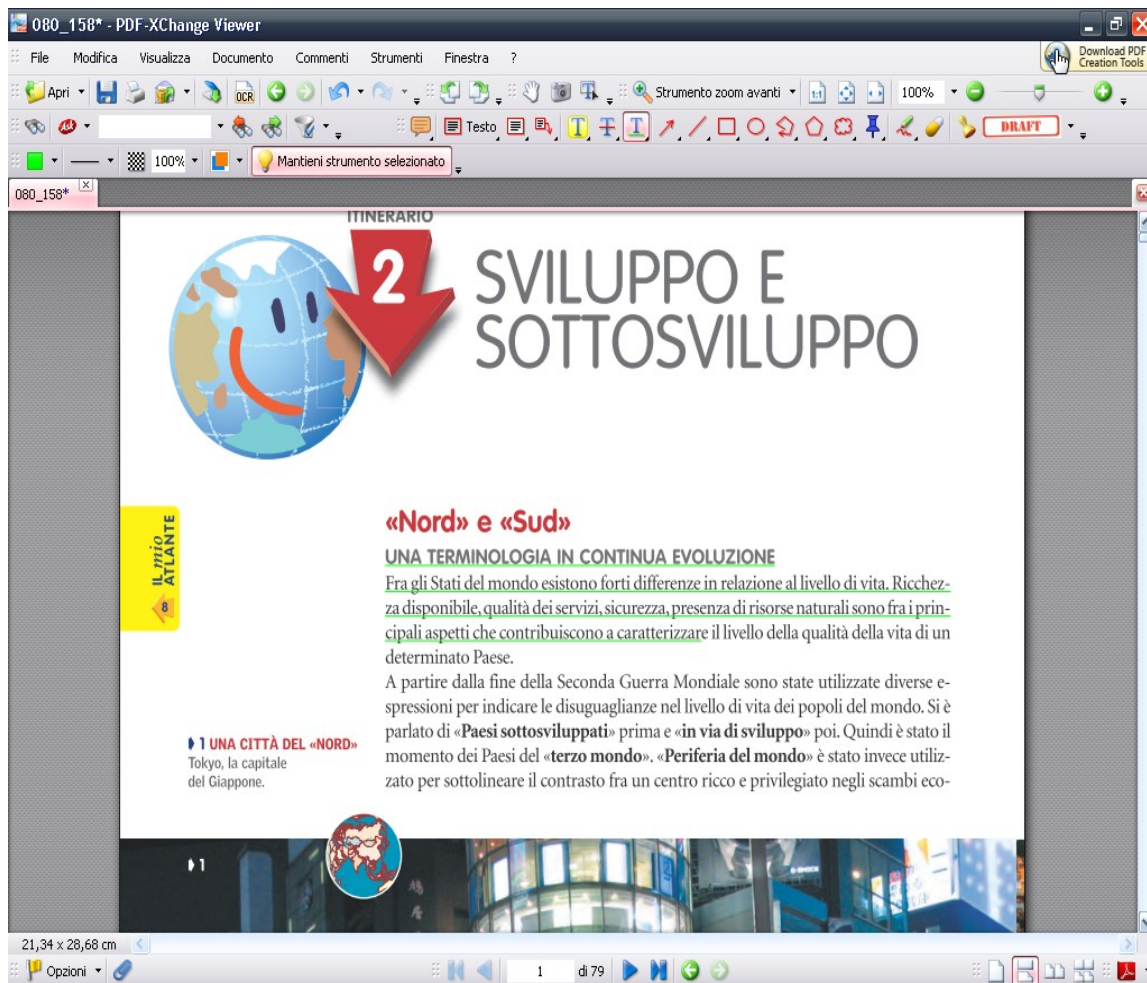

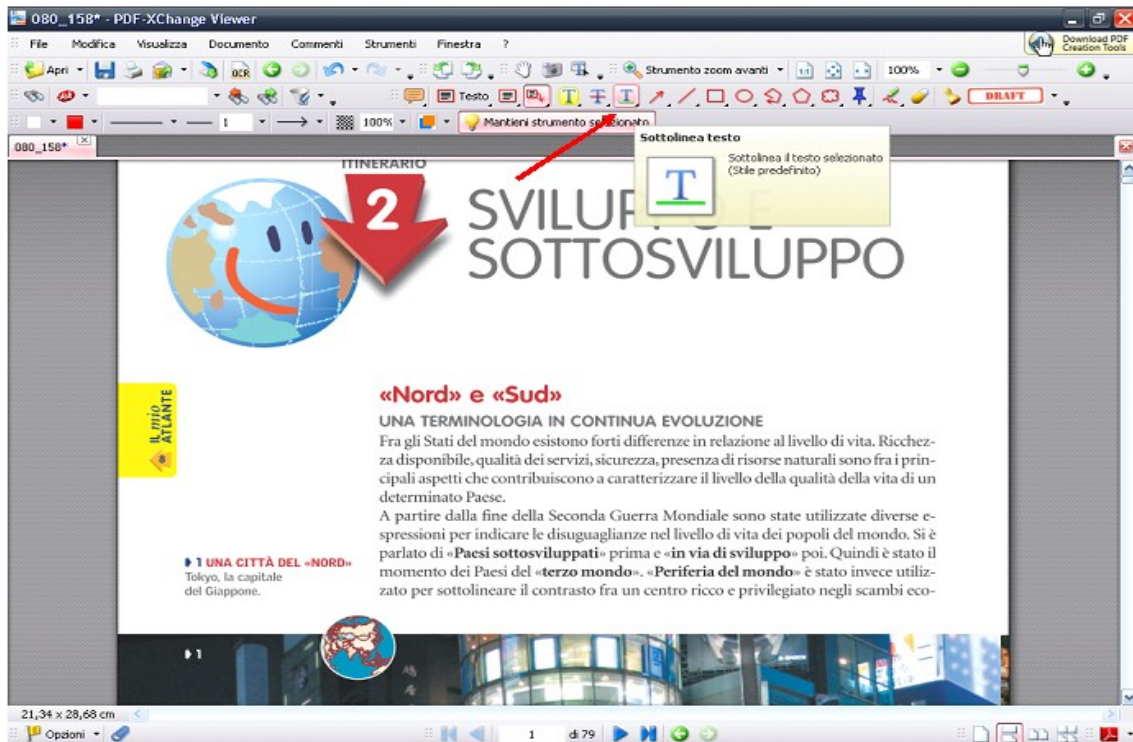

Per evidenziare prima cliccate su...T

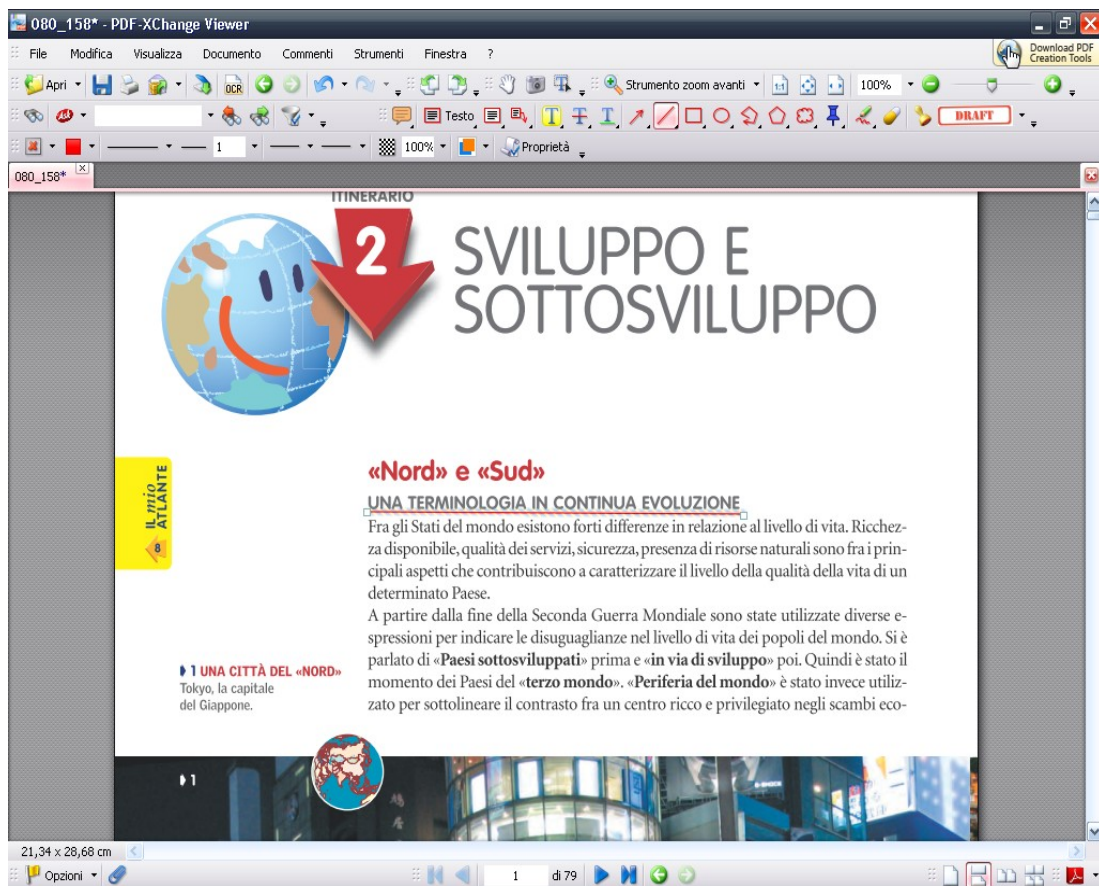

e poi selezionare il testo che volete...

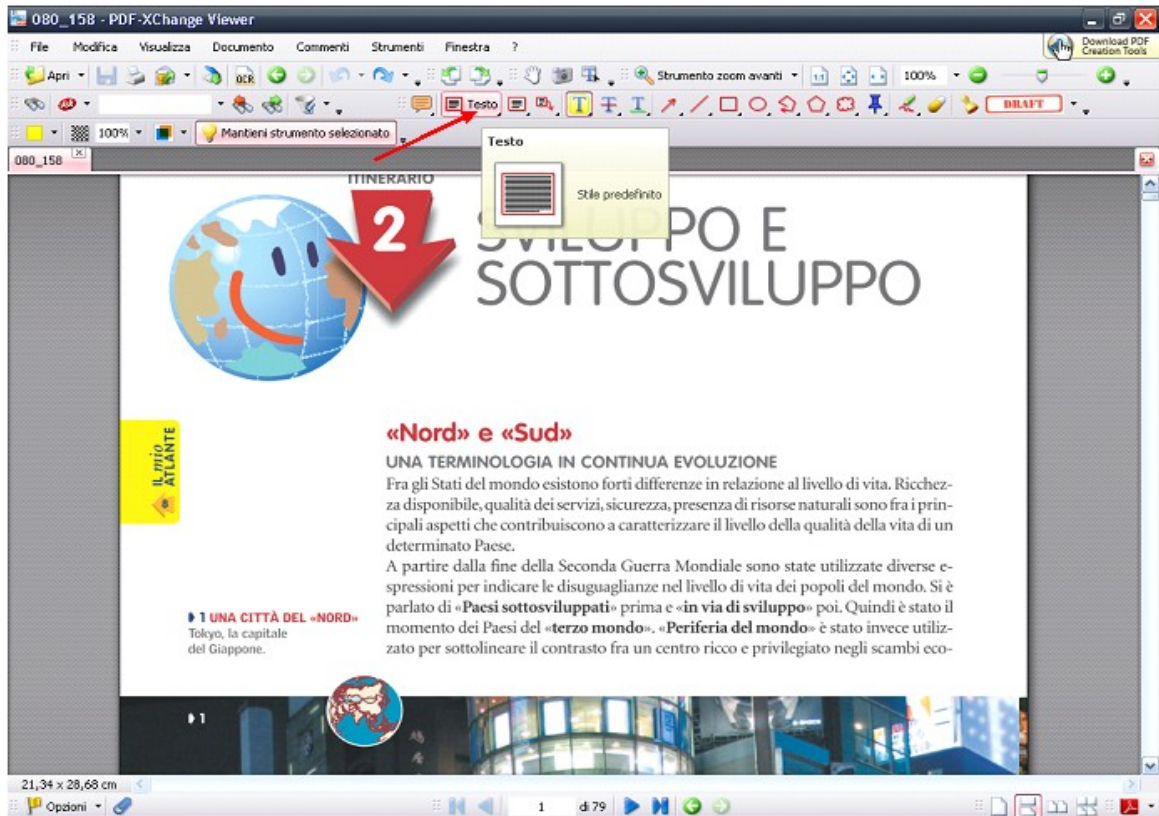

si può anche sottolineare senza evidenziare

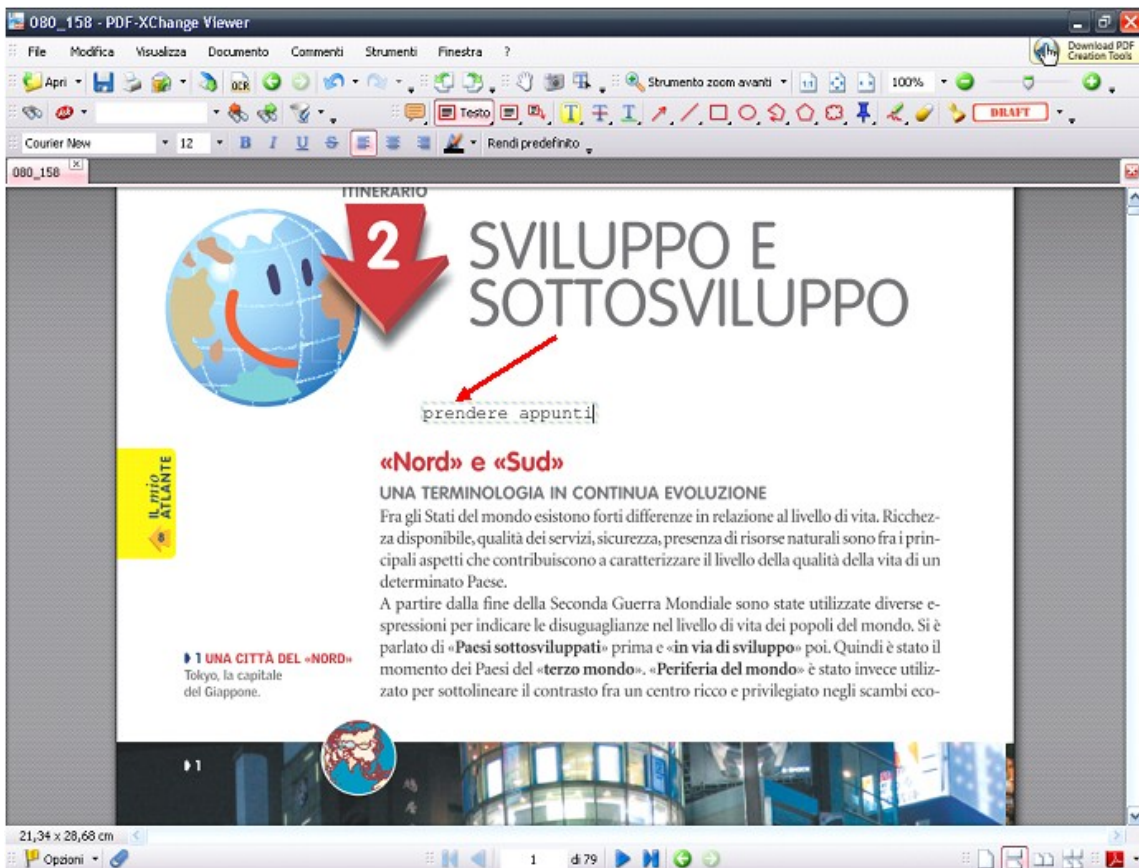

si può usare lo strumento LINEA per creare righe o sottolineare

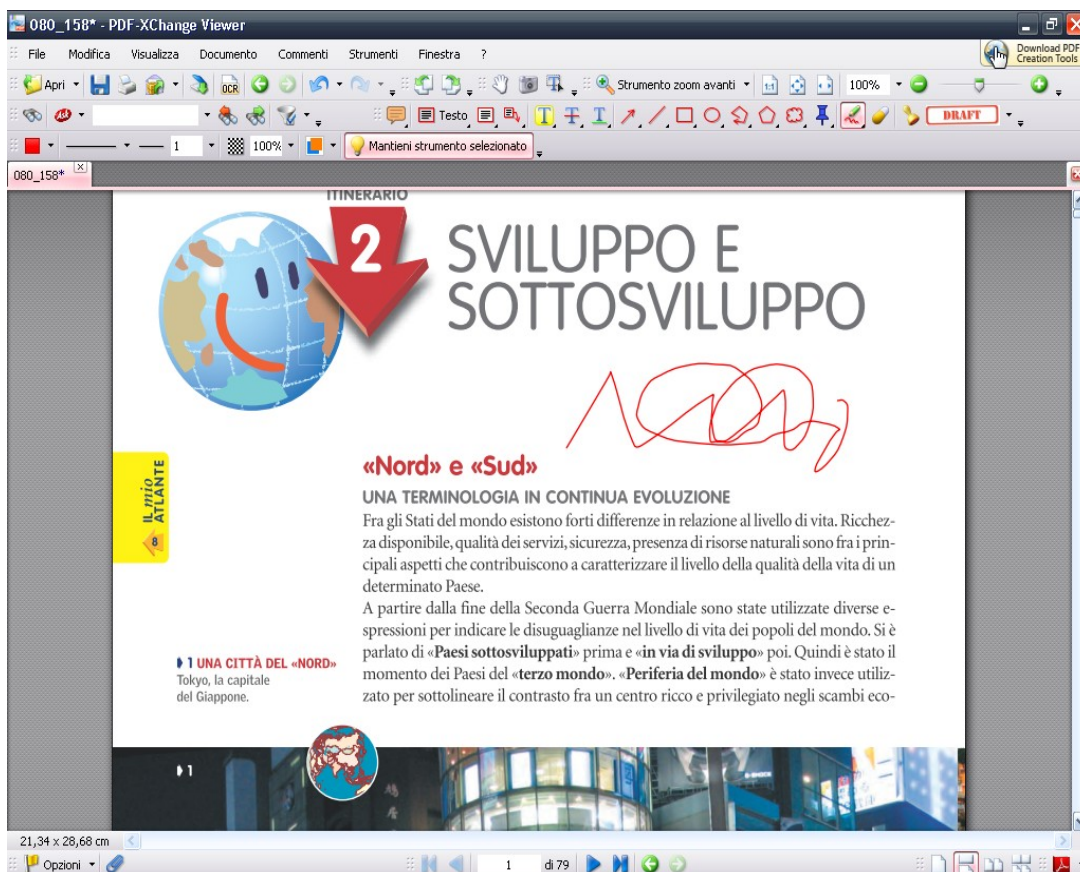

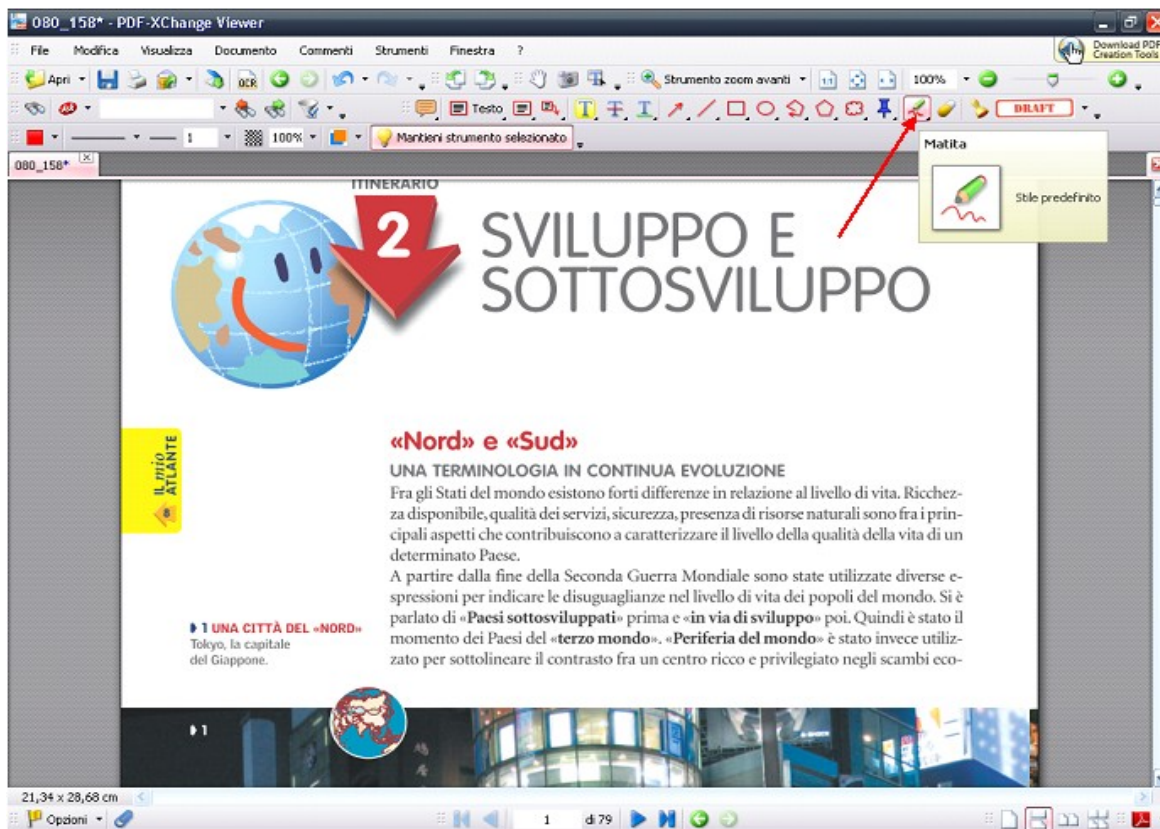

per scrivere o prendere appunti cliccare su testo

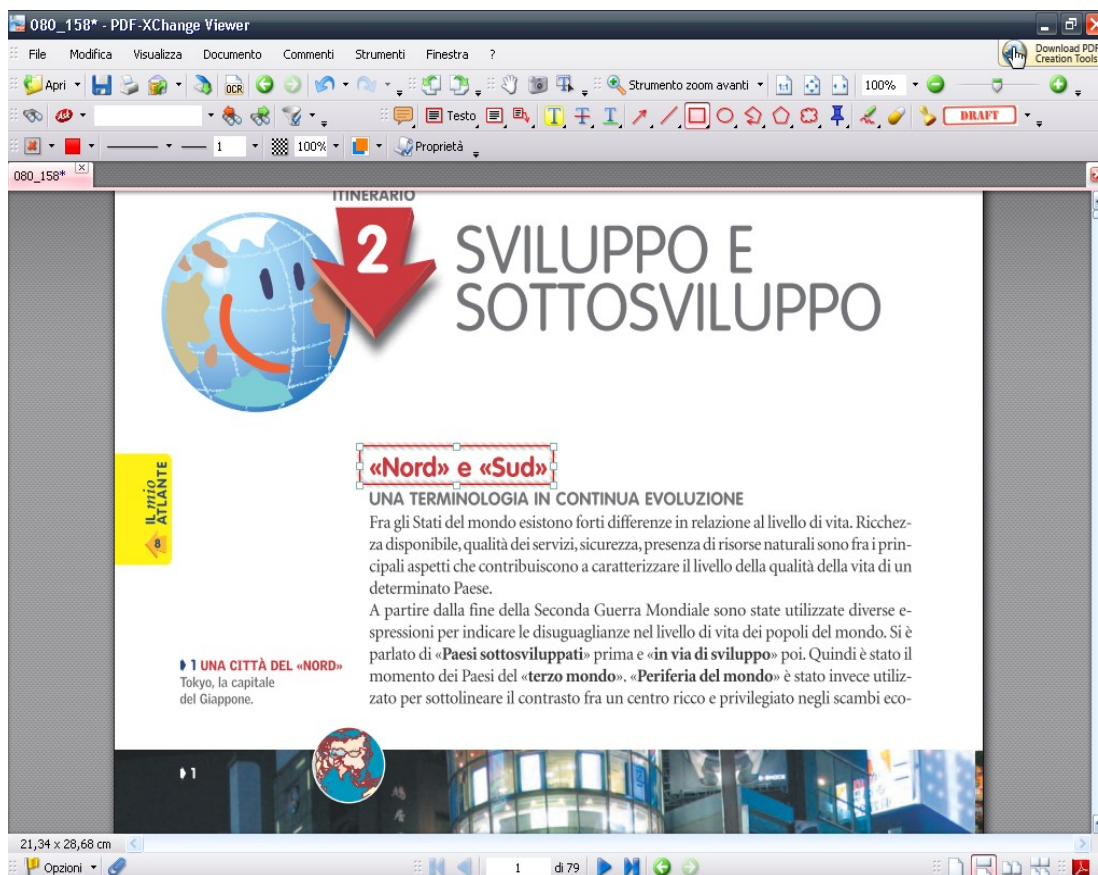

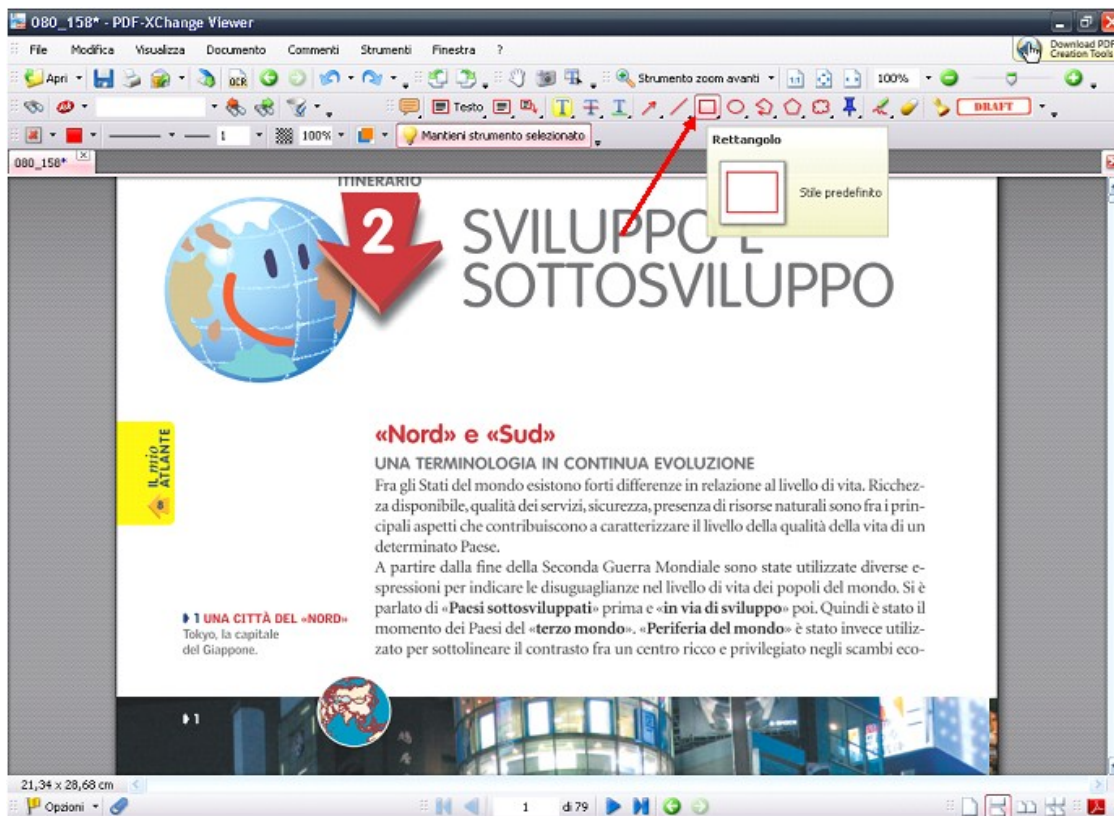

e poi decidere dove voler scrivere

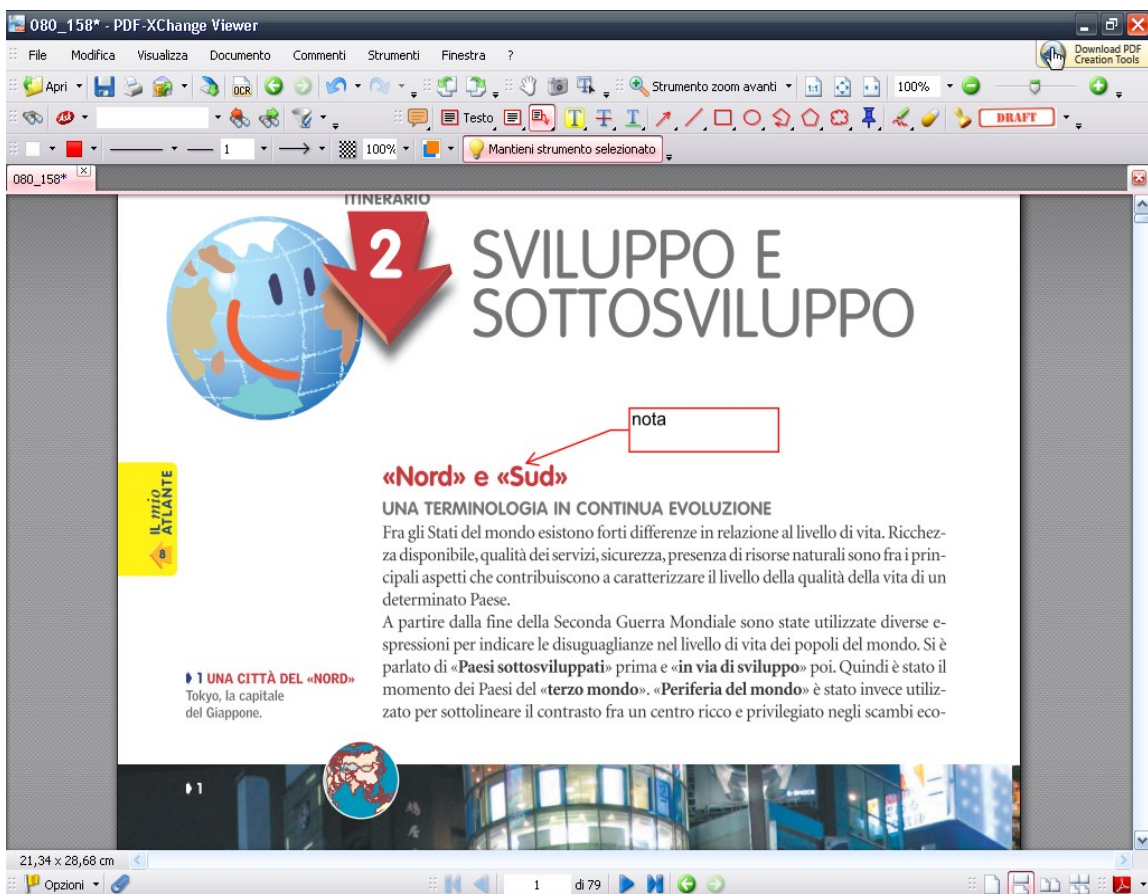

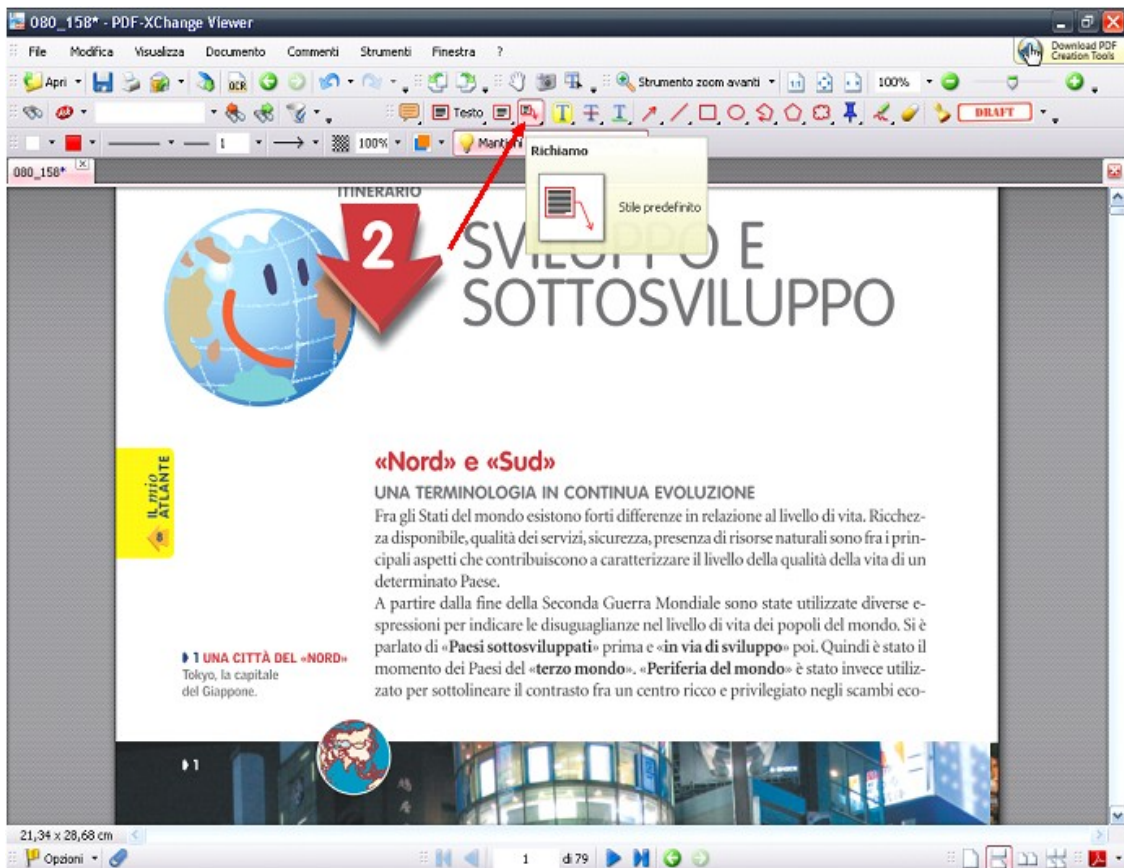

si può anche scrivere a mano libera..

si possono creare varie forme

se lo unite al programma LeggiXme, è ancora di più stupefacente...

buono studio a tutti voi
